Mechanics

Use Case

Attores

Attores is a platform that enables
data and documents to be shared securely
through smart contracts and blockchain technology

Who are we?

David Moskowitz
Project Head
CEO, Attores

Gaurang Torvekar
Project Technical Lead
CTO, Attores

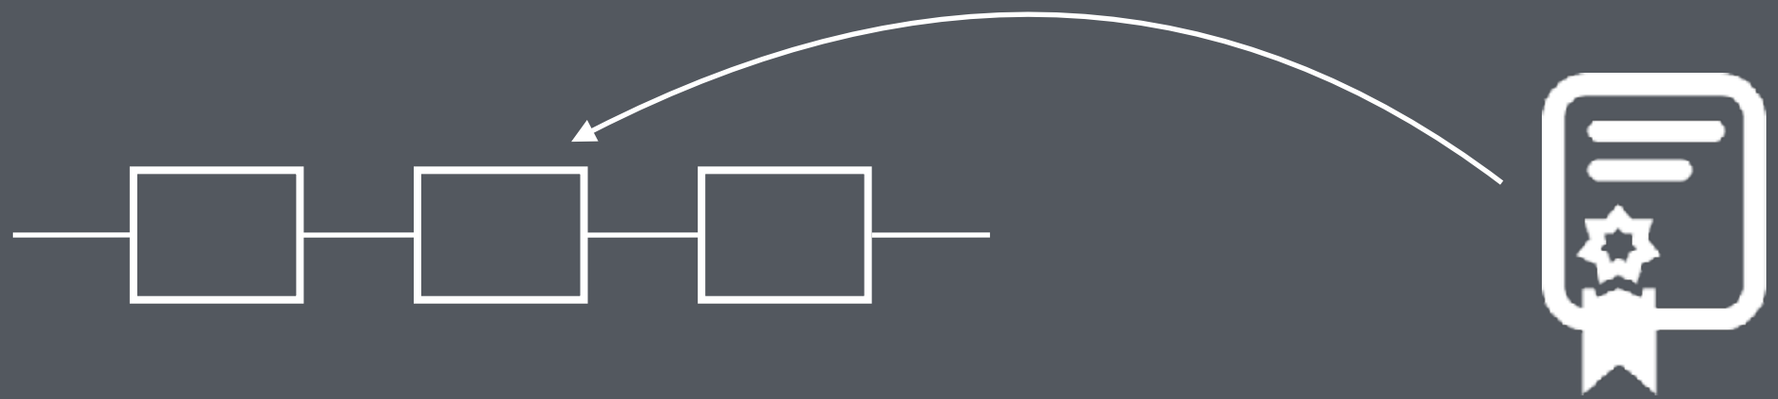
Dipesh Sukhani
Project Operations Manager
COO, Attores

Avadhoot Kulkarni
Project Marketing Manager
CCO, Attores

Brian Ip
Project Development Associate
Summer Associate, Attores

Avengers Assemble

Attores x NGEE ANN POLYTECHNIC



Pilot programme for issuance of
Digital Certificates on the Blockchain

Our Latest Collaboration

David on CNBC Squawk Box Asia, May 24 2017

Our Latest Collaboration

Blockchain Ecosystem

Token Sales

Previously: Digix, Qtum

Upcoming: ReiDAO, TenX, Indorse, Yogee

Bank adoption

DBS/Standard Chartered - Trade Finance

OCBC - Interbank Transfers

Project Ubin

MAS + Banks on Interbank Payments

Innovation Labs

R3, IBM

Exchanges

Quoine, Coinhako, FYB-SG, CRXZone

ACCESS

Cryptocurrency and Blockchain Association

Singapore

Asia Blockchain Incubator

First blockchain incubator in China

World's biggest exchanges

OKcoin.cn, Huobi and Yunbi

Digital RMB Currency

People's Bank of China

Polaris

Wanda developed protocol for trade finance

Alibaba

Food Supply Chain on the blockchain

Fenbushi VC

Blockchain-based VC

Mining Pools

F2Pool - 27% of Bitcoin's mining power

China

Cryptocurrencies are Legal

260,000 Retail Stores
accepting Bitcoin by Summer

Blockchain Evaluation

Government issued methodology

Digital Currency

Mitsubishi UFJ

Blockchain Consortium

Public-Private Collaboration

Fund transfer clearing system

Domestic and Global on Ripple protocol

Japan

Satoshi Studios
First blockchain incubator in SEA

Demonetisation
Increased adoption of Bitcoin

Bank Pilots
ICICI - Stellar
Axis - Ripple
Reserve Bank of India

Blockchain association

India

National Stock Exchange

Blockchain exchange for startups

Bank Adoptions

Kasikornbank + Hyperledger

Siam Commercial invests in Ripple

Bangkok Bank + R3

Everex

Remittance on blockchain

Regulatory Developments

Electronic Transaction Act 2001

Thailand

ACCESS MY
Blockchain and Cryptocurrency Association

neuroware.io
Blockchain consultancy

Blockchain Embassy Asia
Promoting awareness of blockchain

NEM Association
Promote adoption of NEM blockchain

Malaysia

Regulatory Developments

Legalising Bitcoin?

Payment methods

VBTC - exchange

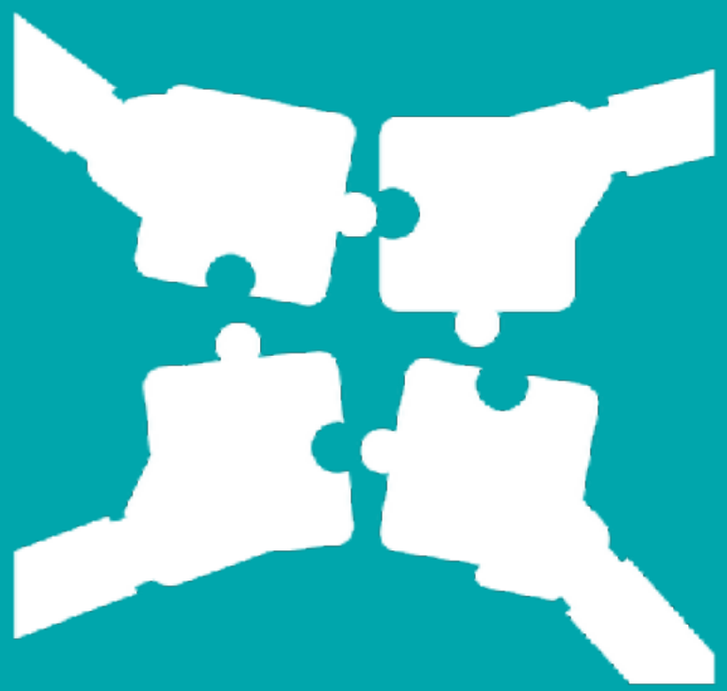
Cash2VPN - remittance

OKLink - remittance

Bitcoin Vietnam + Coinify - payments

Vietnam

Then

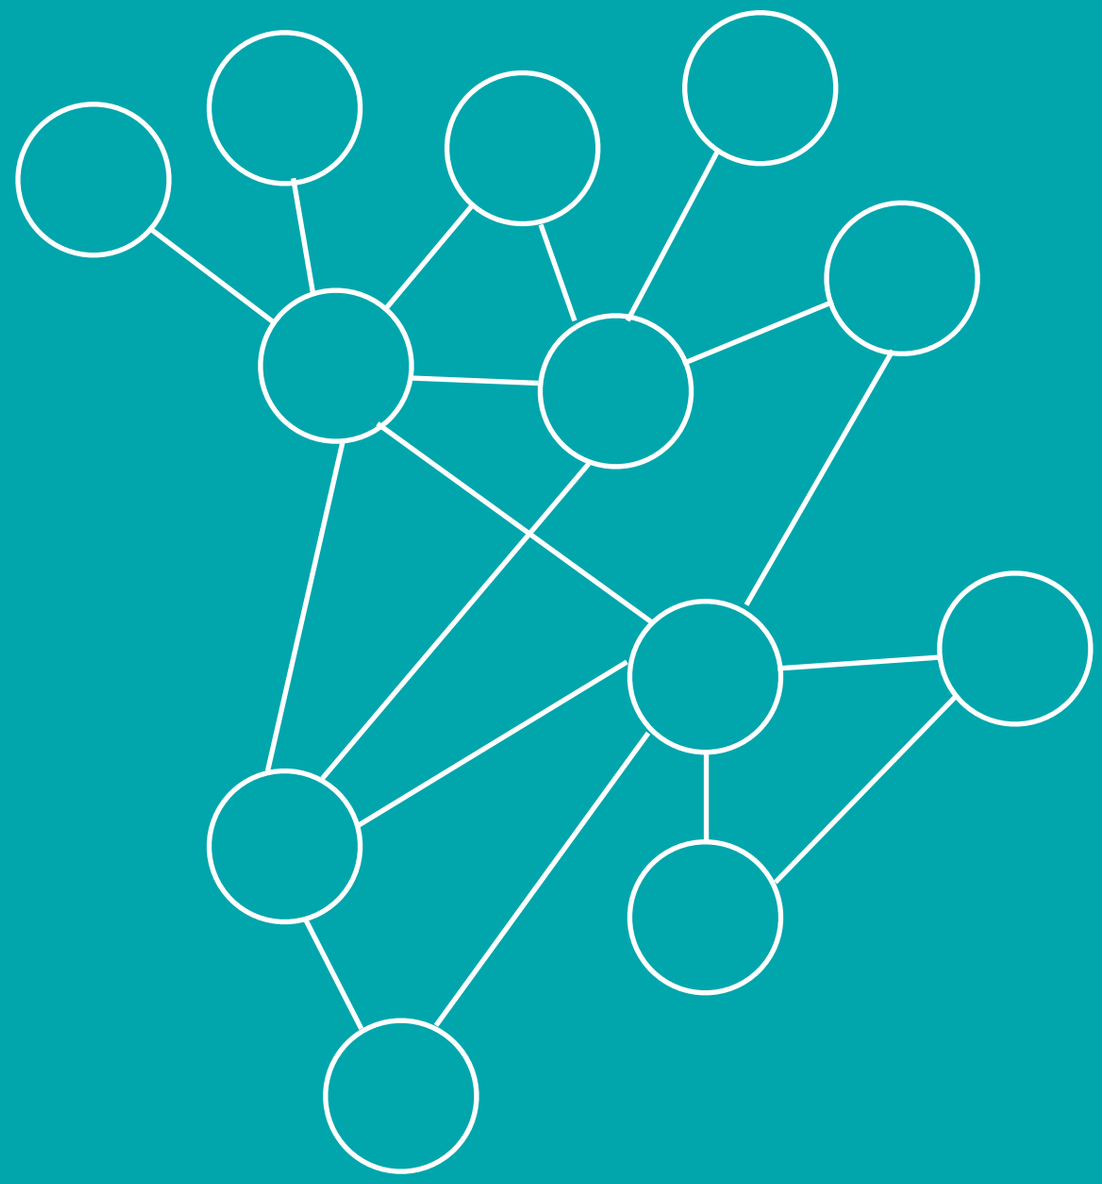


Now

Developments in financing

centralised

decentralised



What is decentralisation?

Fault tolerance

Collusion resistance

Attack resistance

~ Vitalik Buterin

Why is it important?

Computation

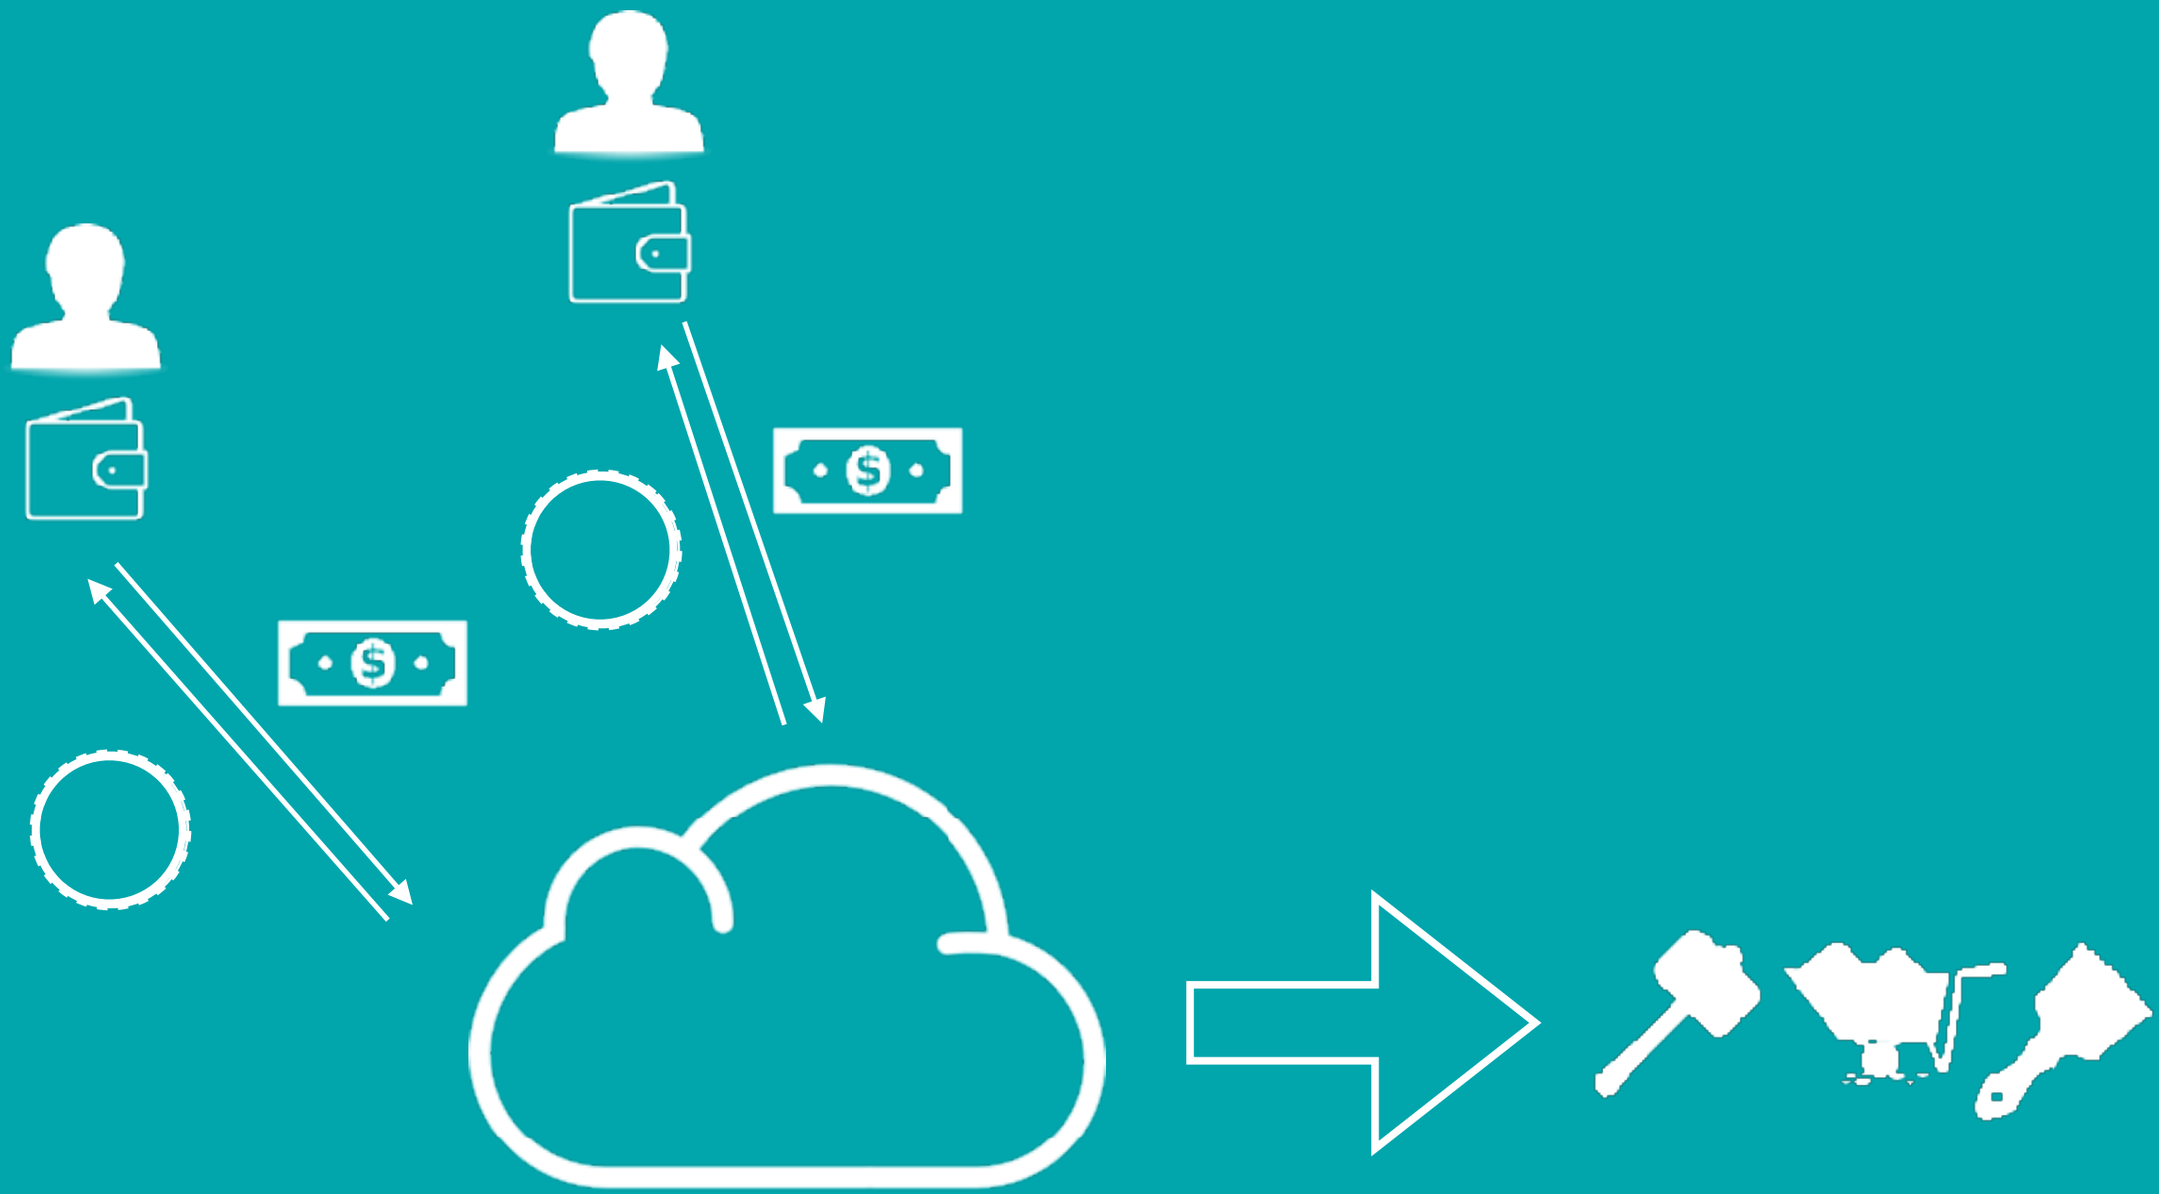
Data storage

Monetisation

External Data

Payments

Web3 landscape



What is an token sale?

It all started with…

Loss of ownership of personal data

Monetisation of data

The Skills Economy

The Problem Today

Economic

Three
Problems Of
Centralisation

Autonomy

Trust

A decentralised solution

$323B

$1B (2015)

$11B

$24B

$26.2B

Our Market

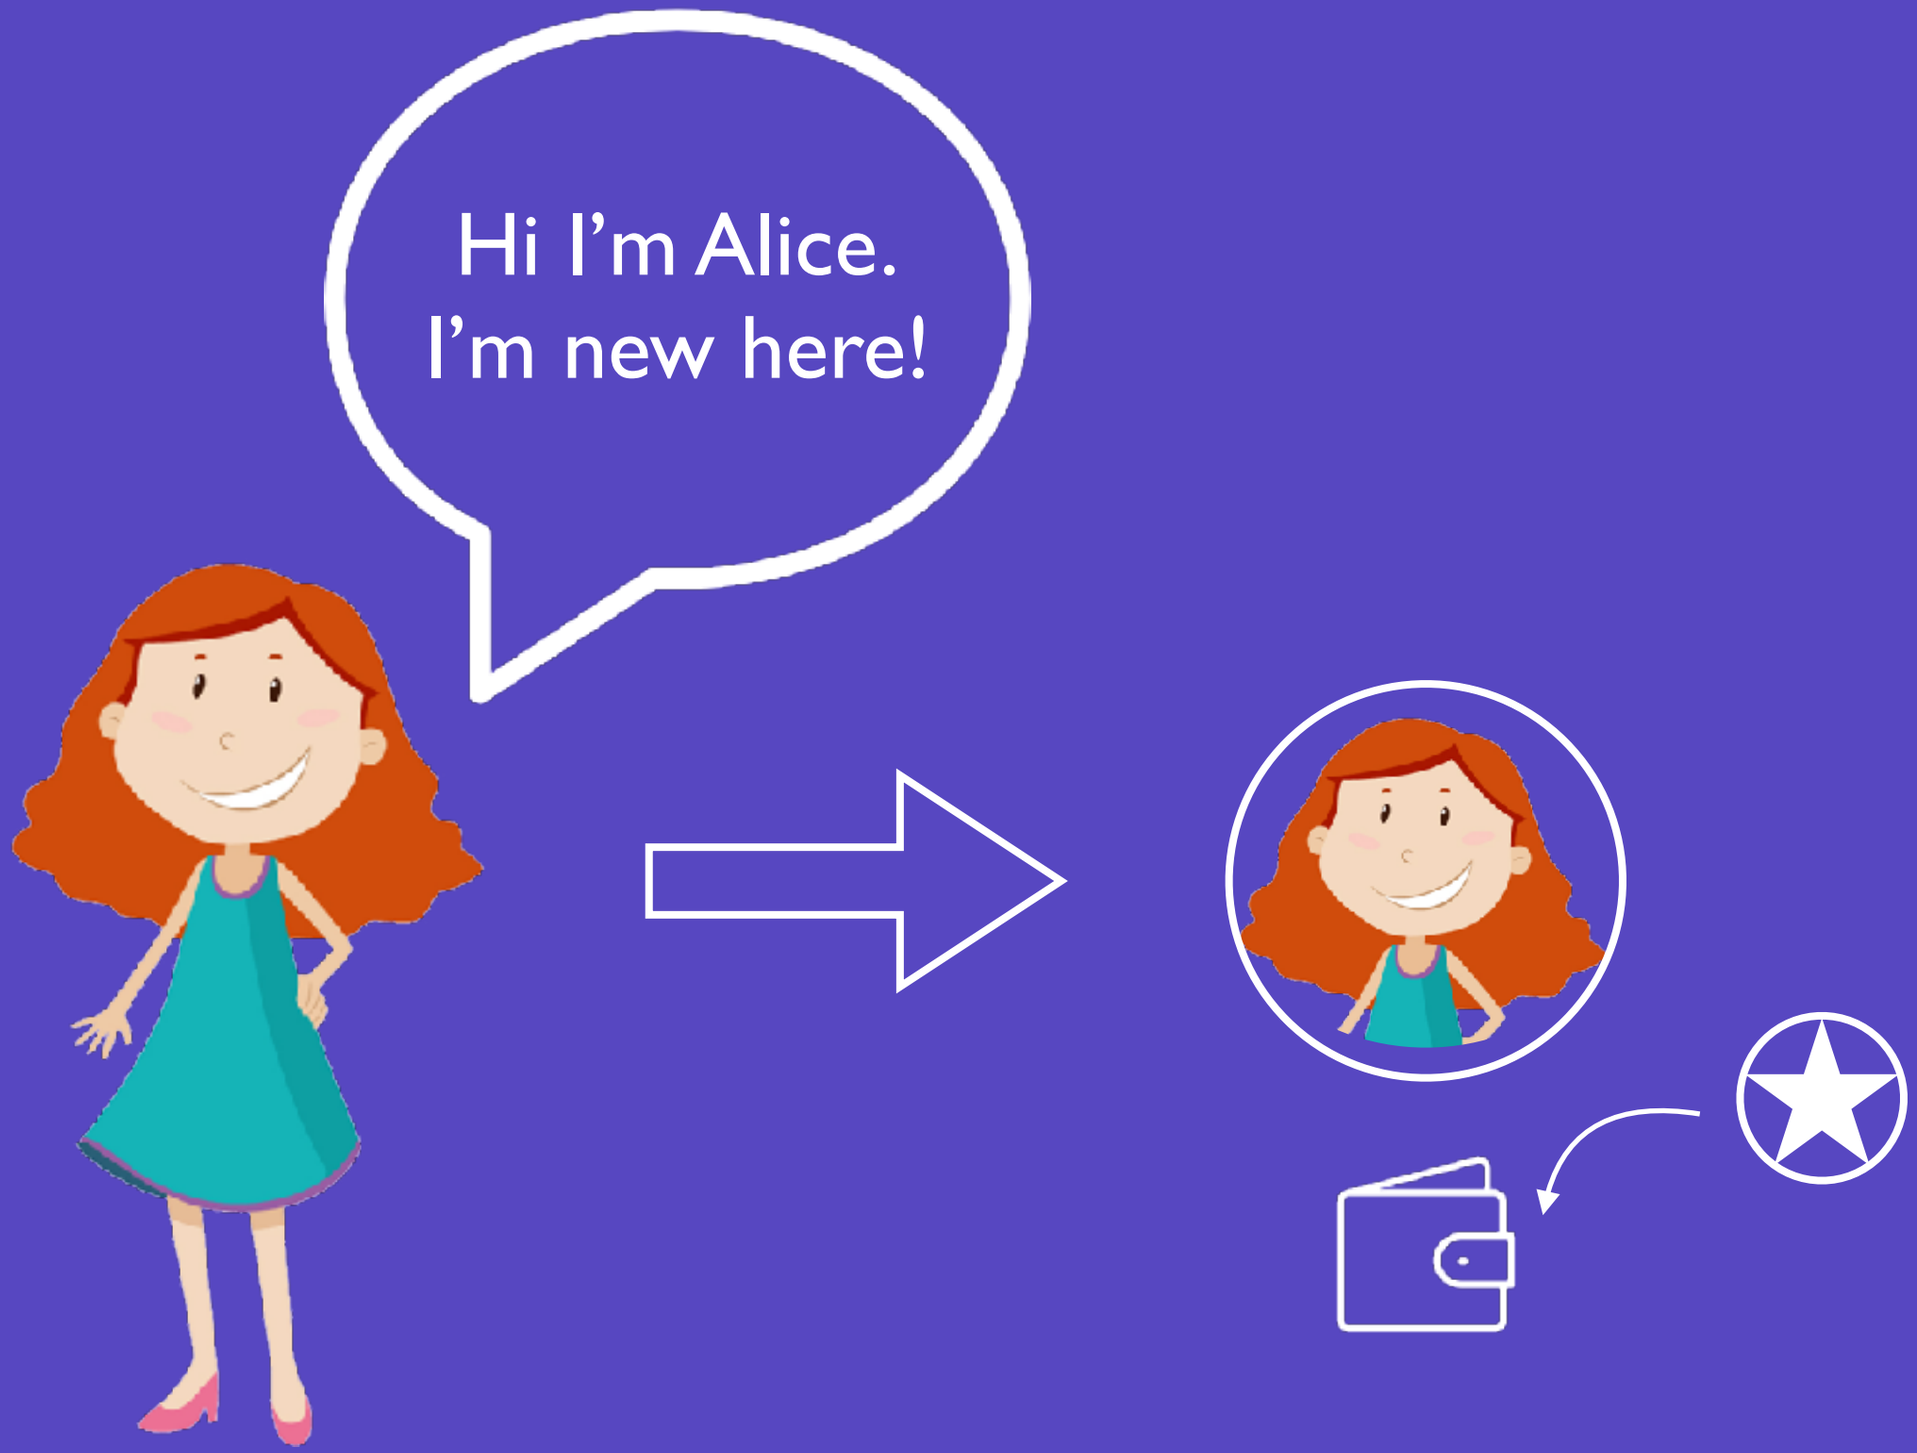
“an attempt to give back ownership of data…”

“contributors will be rewarded for their contributions…”

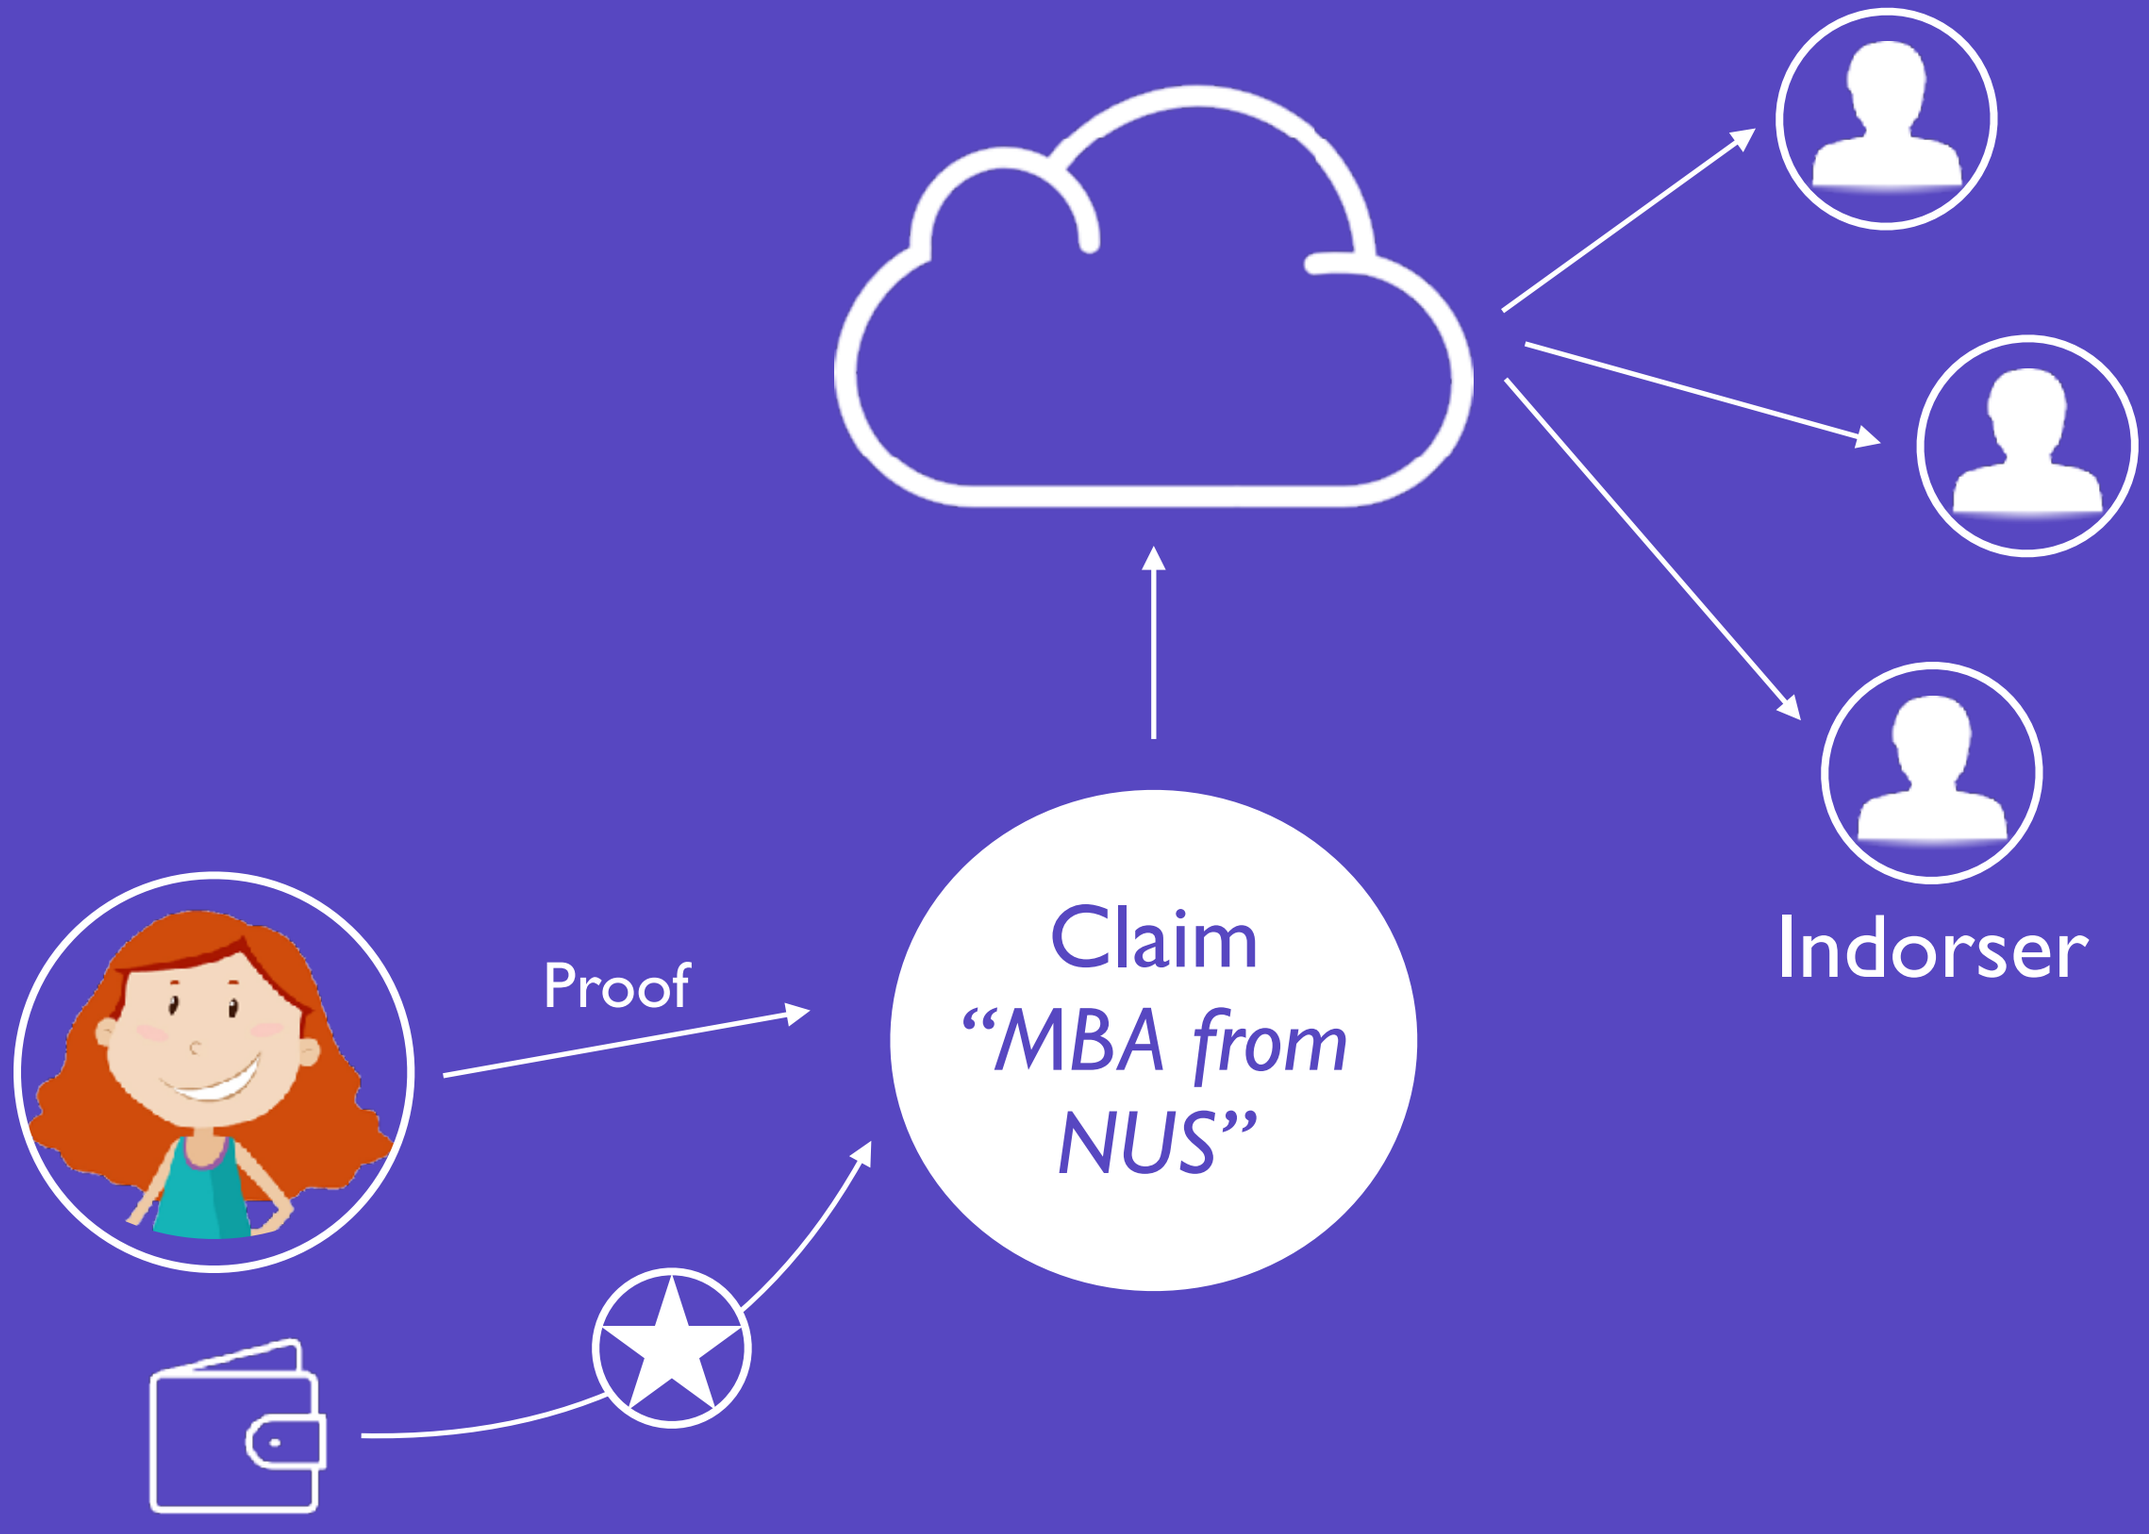
“gives any credential a certain degree of validity…”

And so…
Indorse was born

Our Solution



The Story of Alice



Submission of Claim

Anonymous indorsements

Random data source of entropy

ZK Proofs

Choosing an Indorser

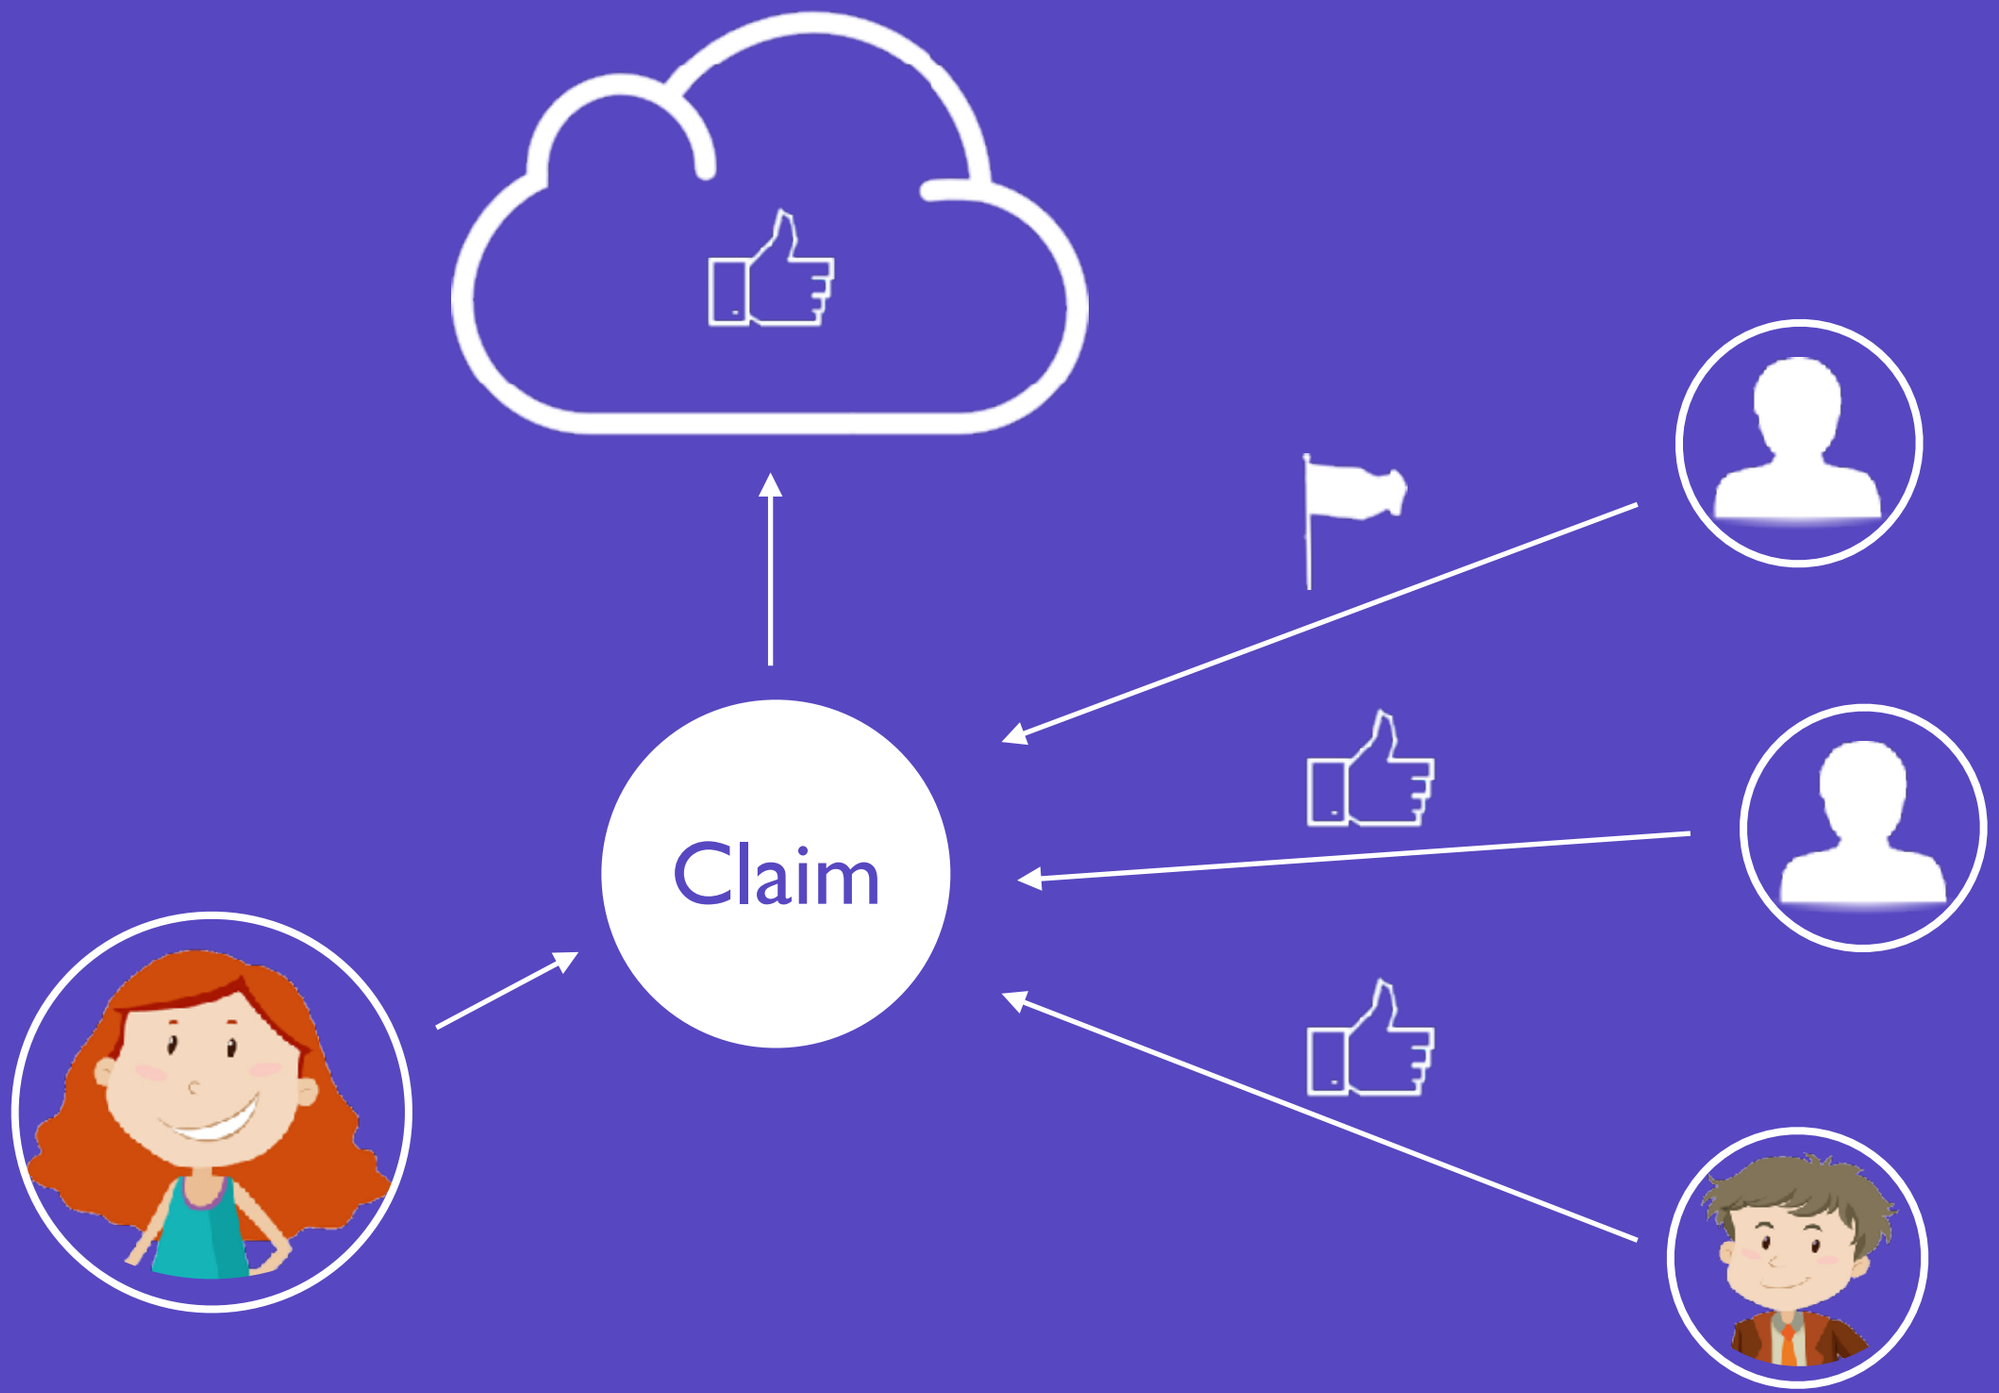
I’m Bob.
I got selected to
Indorse Alice’s claim.

Bob as an Indorser

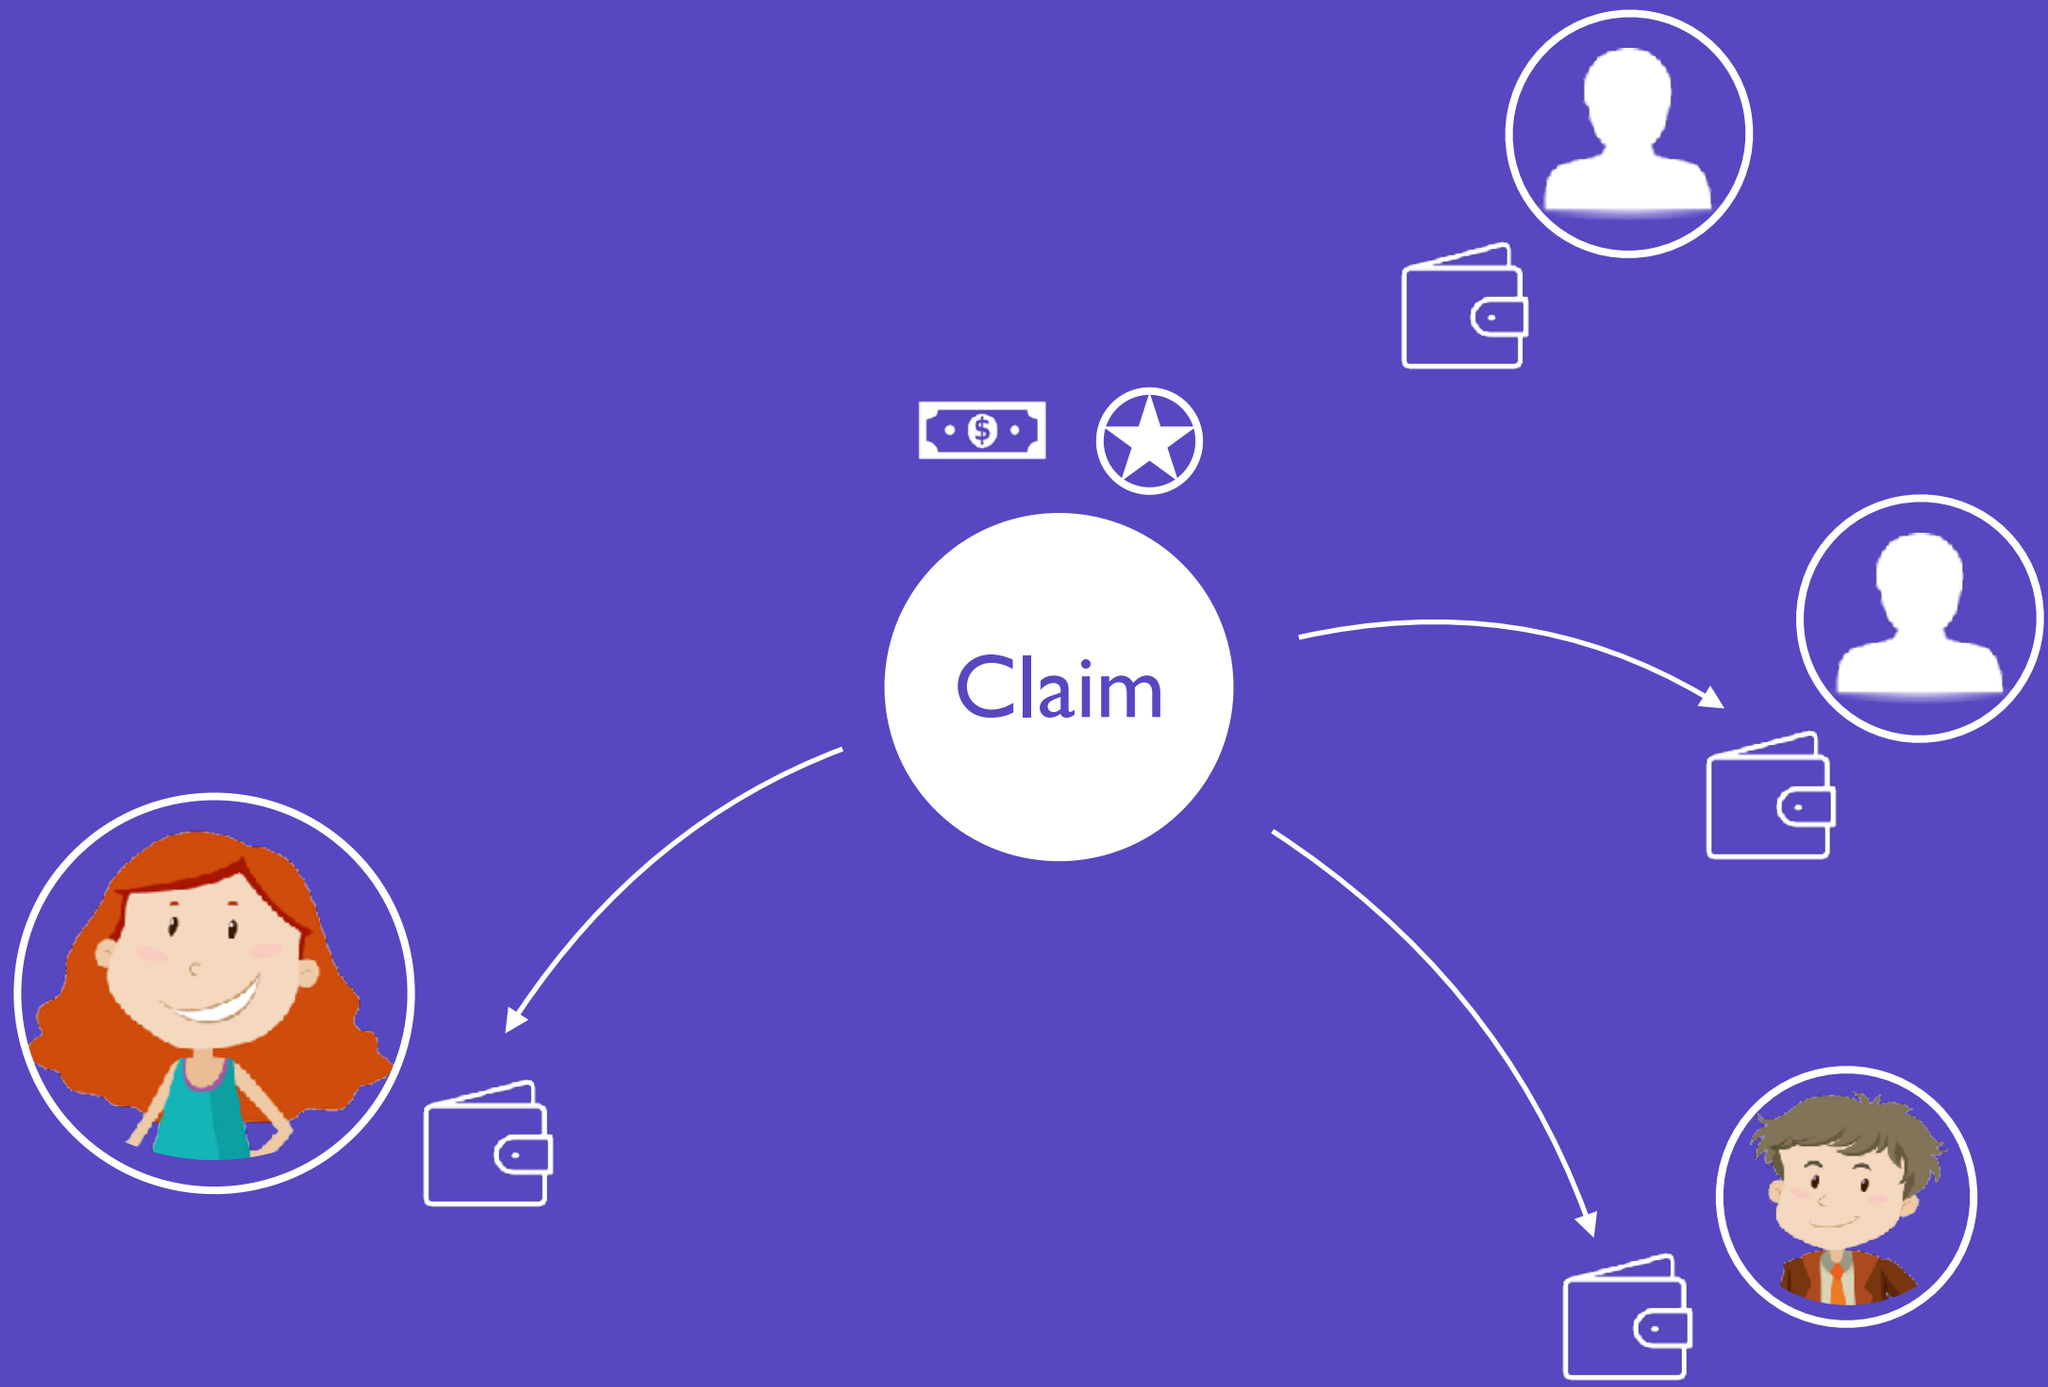
Is Alice's claim true?

Claim

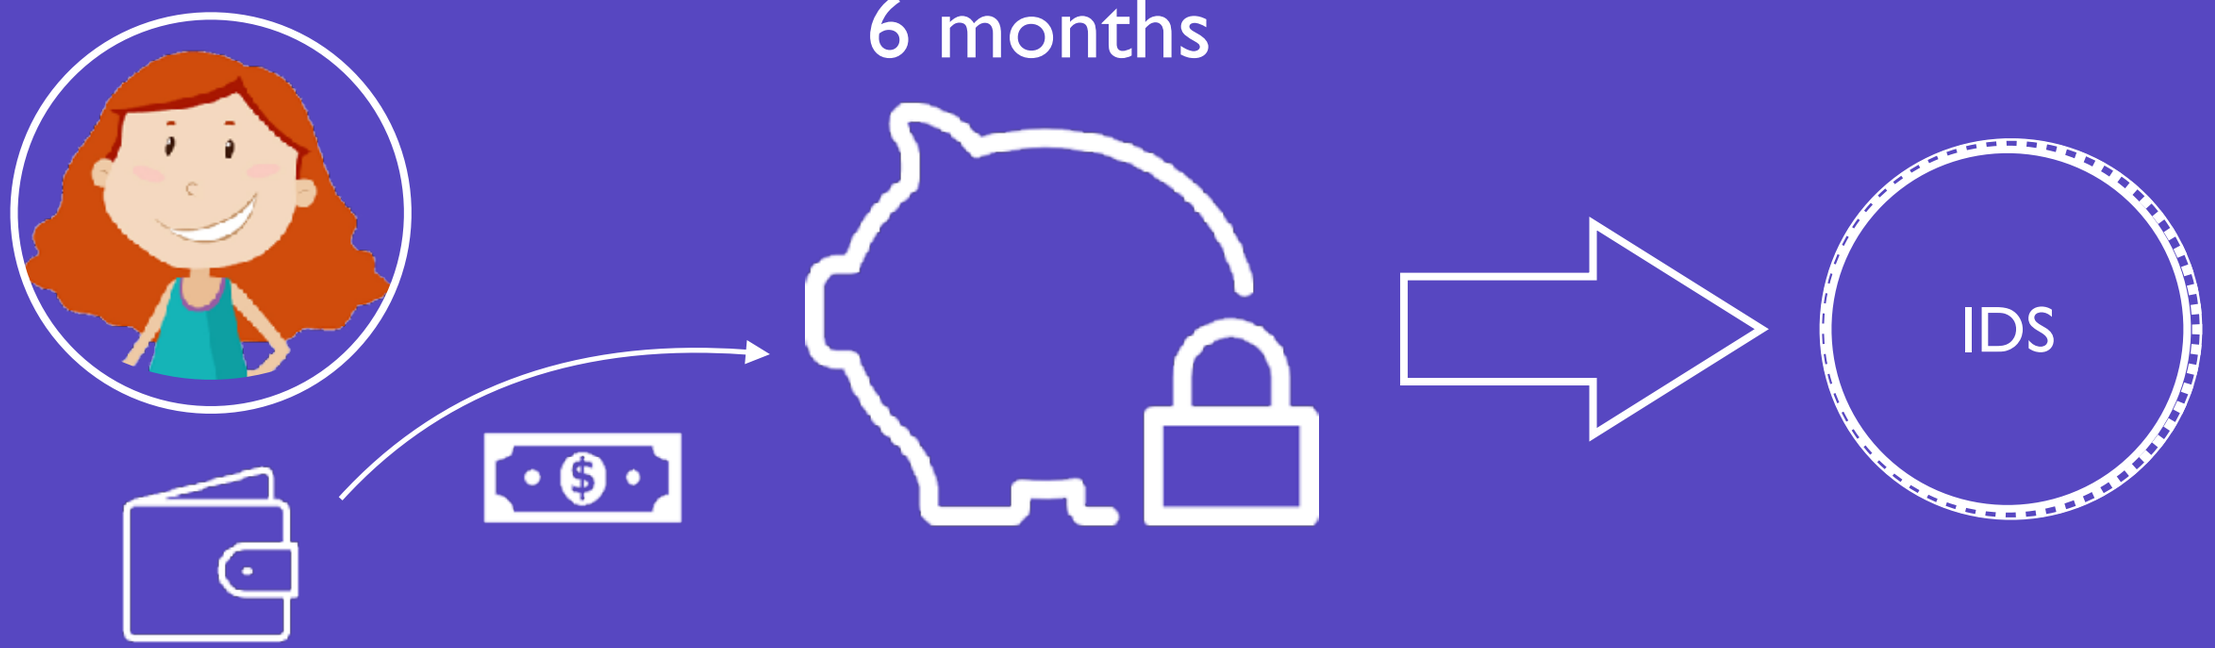
Bob's Indorsement



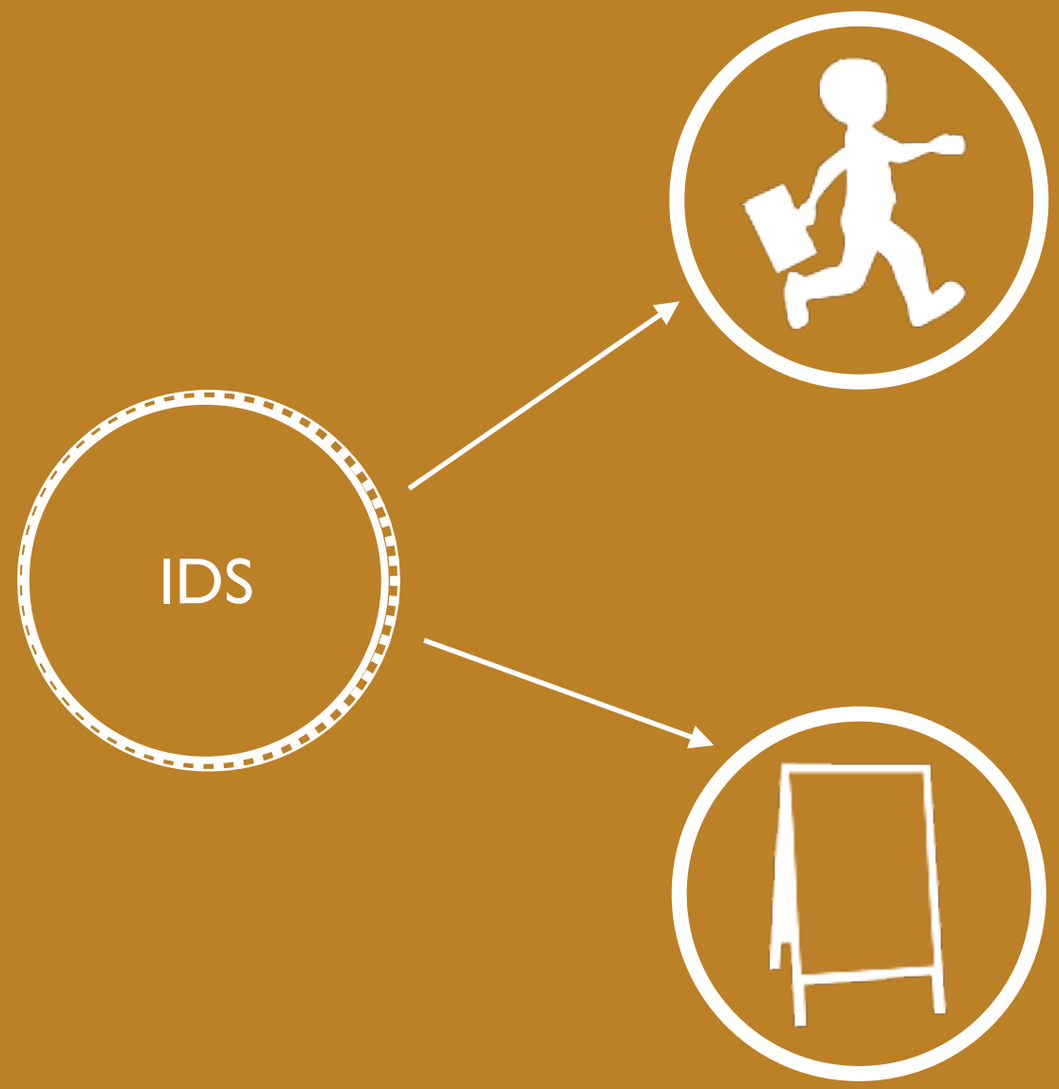
Consensus (Voting)



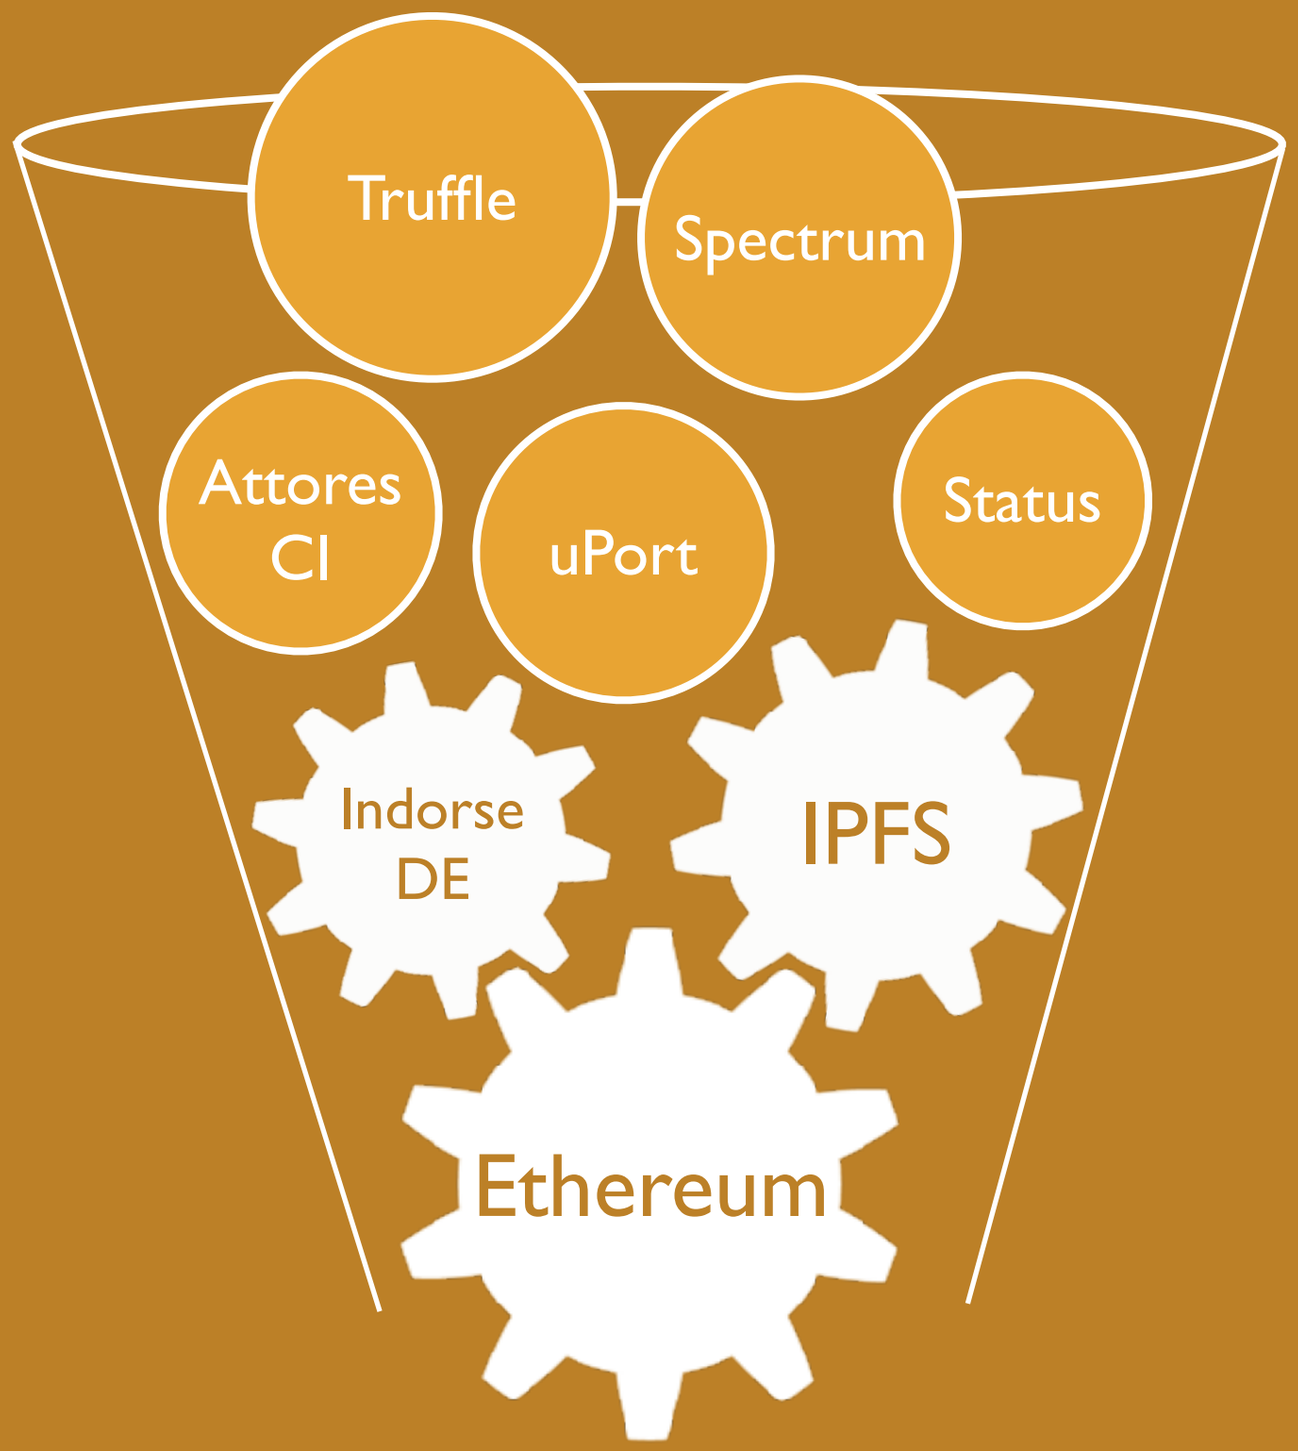
Consensus (Rewards)



Vesting and Forging



Token Considerations



Integrations

Hiring

Advertising
